Agent Testimonials:

While we can talk about our program and the support we provide until we turn blue in the face, we found the people that say it best are the people that experience it every day. May we introduce a few of our agents...

“It took me a year and half to find an agency that really understood what services an agent needs to succeed in today’s market.”

- Michelle M.

“I joined TravelQuest after an exhaustive search for a reliable, honest and trustworthy host agency...”

- Shannon R

■ since 1998 ■

No ticketing fees

No GDS fees

No group fees

The all-inclusive host agency

Our Company:

TravelQuest has been hosting agents across the United States since 1998. We pride ourselves on our customer service, top commissions, and dedication to staying on the cutting edge of the travel industry.

Since TravelQuest is a franchise of Travel Leaders, our agents are part of the 10th largest travel company in the world. Through Travel Leaders, our agents have access to blocked cruise space, negotiated air/car/hotel rates, and exclusive supplier promotions.

All-Inclusive Hosting:

When you work with TravelQuest, you have everything you need to be a successful travel agency all wrapped into one all-inclusive price.

Simply choose your monthly plan and rest comfortably knowing there will be no ticketing, support, technology, or GDS fees on your statement. Nothing. We figure the world is complicated enough without adding another complex fee structure to it.

Training and Continuing Education:

We are firm believers that when we give our agents the resources to build their business, we are investing in the future.

Whether you're a new agent or an experienced agent, a classroom learner or self-paced learner, TravelQuest has something for you. On average, we have around 5 training opportunities a week for our agents.

Just a few of the trainings our agents have access to:

- Agent Q&A chatboards
- FAM trips
- TQ University
- Live and recorded webinars
- Tradeshow
- In-house workshops

Best of all, the cost of TravelQuest's training and continuing education program is included in the price of your program.

Technology

One of the great advantages of being with a host is that they provide agents with technology that they may not have access to on their own.

Each of our agents receives a web-based Customer Relationship Management (CRM) tool. Use it for storing client contact information, documenting conversations, or for a targeted marketing campaign.

Agents looking for a cost effective website solution will be thrilled that we offer an optional website program. Agent can not only change their contact information and upload a logo, the whole website is able to be customized! And don't worry, no need to be a website genius. It's all done in an easy to navigate program with a step-by-step manual.

Our Agent Portal places all our agency updates, trainings, and resources in one place. Agents can view the up-to-date commission tracking and approve their statements with a click of the mouse.
